STERN'S NURSERIES

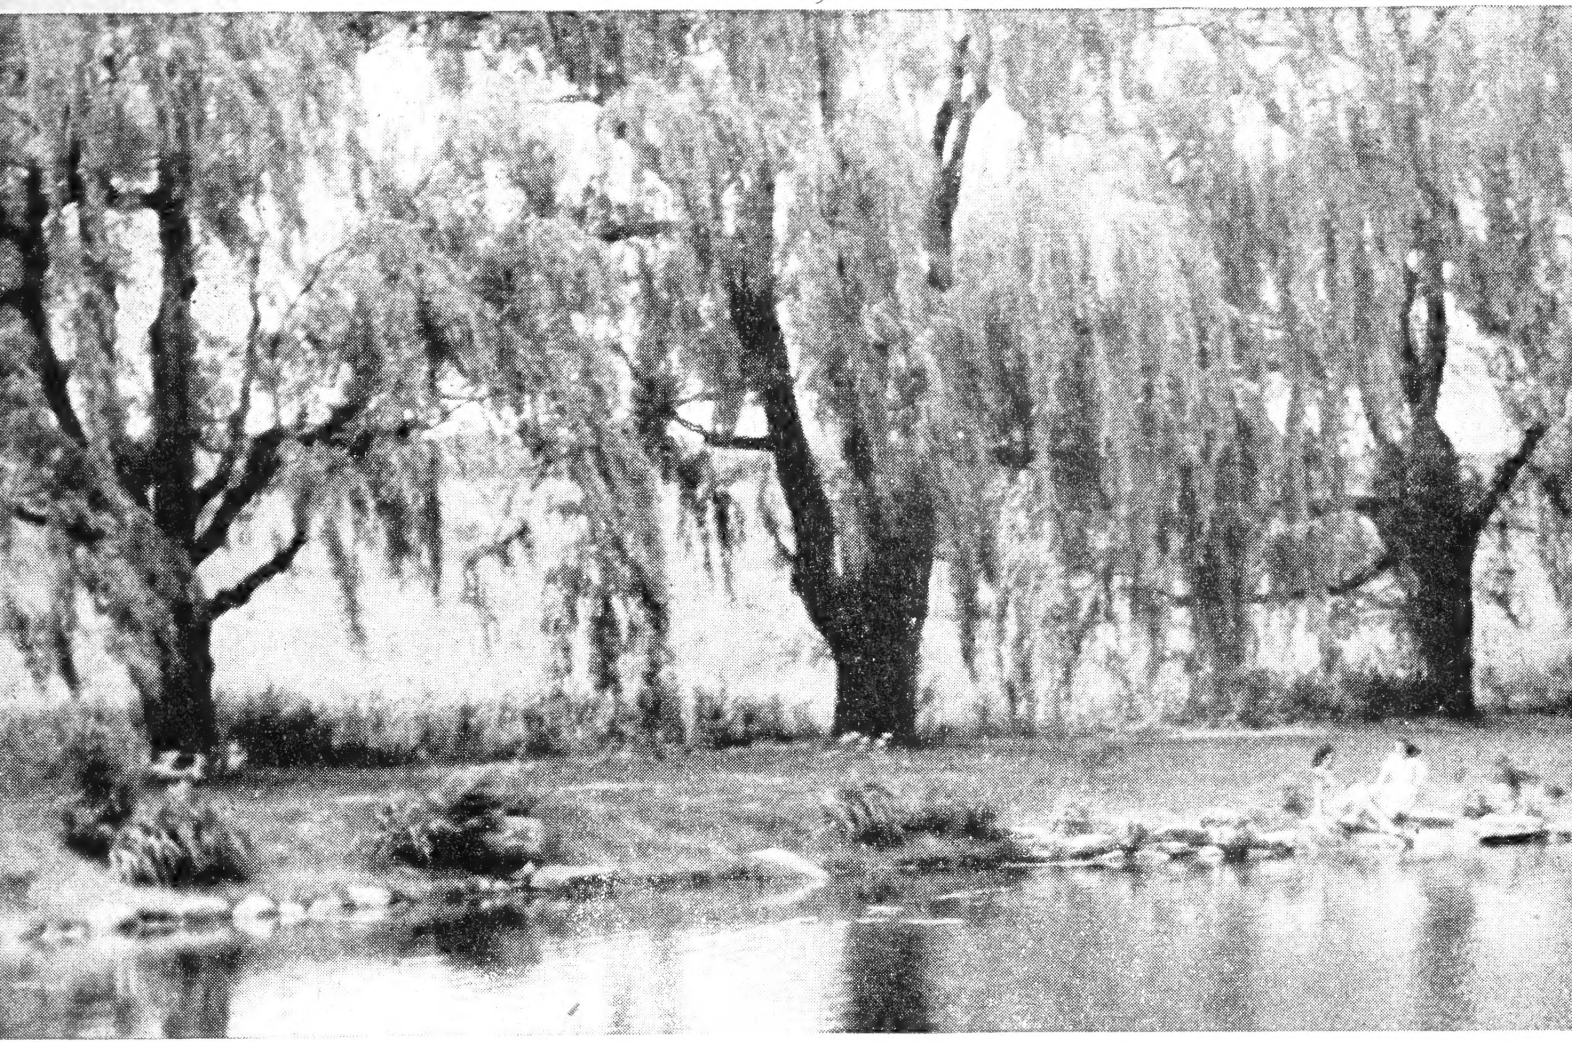

GENEVA, NEW YORK

PLANTING SEASON

Proper planting time usually begins around the middle of March and continues throughout April and early May.

We ship to Southern and Pacific coast states all winter.

Please send in your order as soon as you receive this catalog. We will ship at proper planting time.

GOLDEN WEEPING WILLOWS.

SPRING TIME AND BLOSSOMS — A World of Happiness is waiting for you, and Peace and Beauty will be around you when you relax this summer in your back yard and watch your fruits and flowers blooming and ripening for you.

This book will acquaint you with beautiful trees and plants which deserve your attention. Carefully and conscientiously written, it should be well worth your time to be read and studied thoroughly.

Some garden books which you may want to consult for further information are recommended on the end of this page.

Plant one tree or a long list of them. They will make your life happier than ever.

SUGGESTED READING

Planting a Fruit Garden. 20 Pages. \$.10.

Dwarf Fruit Trees. 41 Pages. \$1.00.

Garden Guide. 576 Pages, 300 Illustrations. \$2.00.

How To Landscape Your Grounds. 232 Pages, 147 Illustrations. \$2.75.

Garden Encyclopedia. 1,400 Pages, 1,500 Illustrations. \$4.00.

We will supply these 5 books, a complete garden library, for a total of \$9.00 or any single copy at prices as listed.

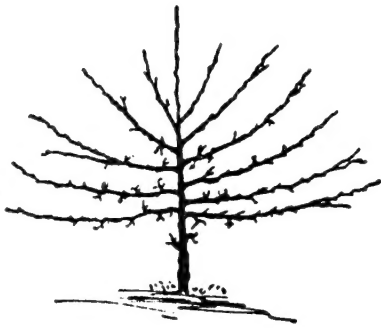

DWARF FRUIT TREES

Dwarf Fruit Trees are ideal ornamental plants, combining beauty and utility in a most delightful way. They produce extra large, delicious fruit. They do not spread more than 10-15 ft., and they produce considerable crops a few years after planting. They thrive in any average garden soil.

It is a pleasure to watch these small trees when they are covered with beautiful blossoms in the spring, and when they are loaded with delicious fruit in the fall.

Only Apples and Pears are grown in Dwarf Trees, budded on Malling and Quince of Angers rootstocks, which insure dwarf habit and early yields. See page 5, 6 and 8 for varieties and prices.

FAN-SHAPED ESPALIER TREES

Fan-Shaped Espalier trees make a beautiful decoration for the sides of your home or garage. They need no more room or care than a Climbing Rose, are a never ending point of interest, and will supply your table with delicious fruit.

They grow 10 to 12 ft. tall, and they generally begin to produce fruit the second or third year.

Any home having a wall which has been neglected can now turn that portion of the home ground into a little orchard with but very little expense. Fan-Shaped Espalier trees are easy to care for. Directions are included in every shipment.

Peaches, Apricots and Sour Cherries are available in Fan-Shaped Espalier trees. See page 7, 9 and 10 for varieties and prices.

WHAT TO PLANT: DWARF OR STANDARD FRUIT TREES?

Dwarf Fruit Trees should be preferred where space is limited. They are the ideal garden-type of tree for city and suburban homes. Standard Fruit Trees should be planted where sufficient space is available.

PLANTING DISTANCES

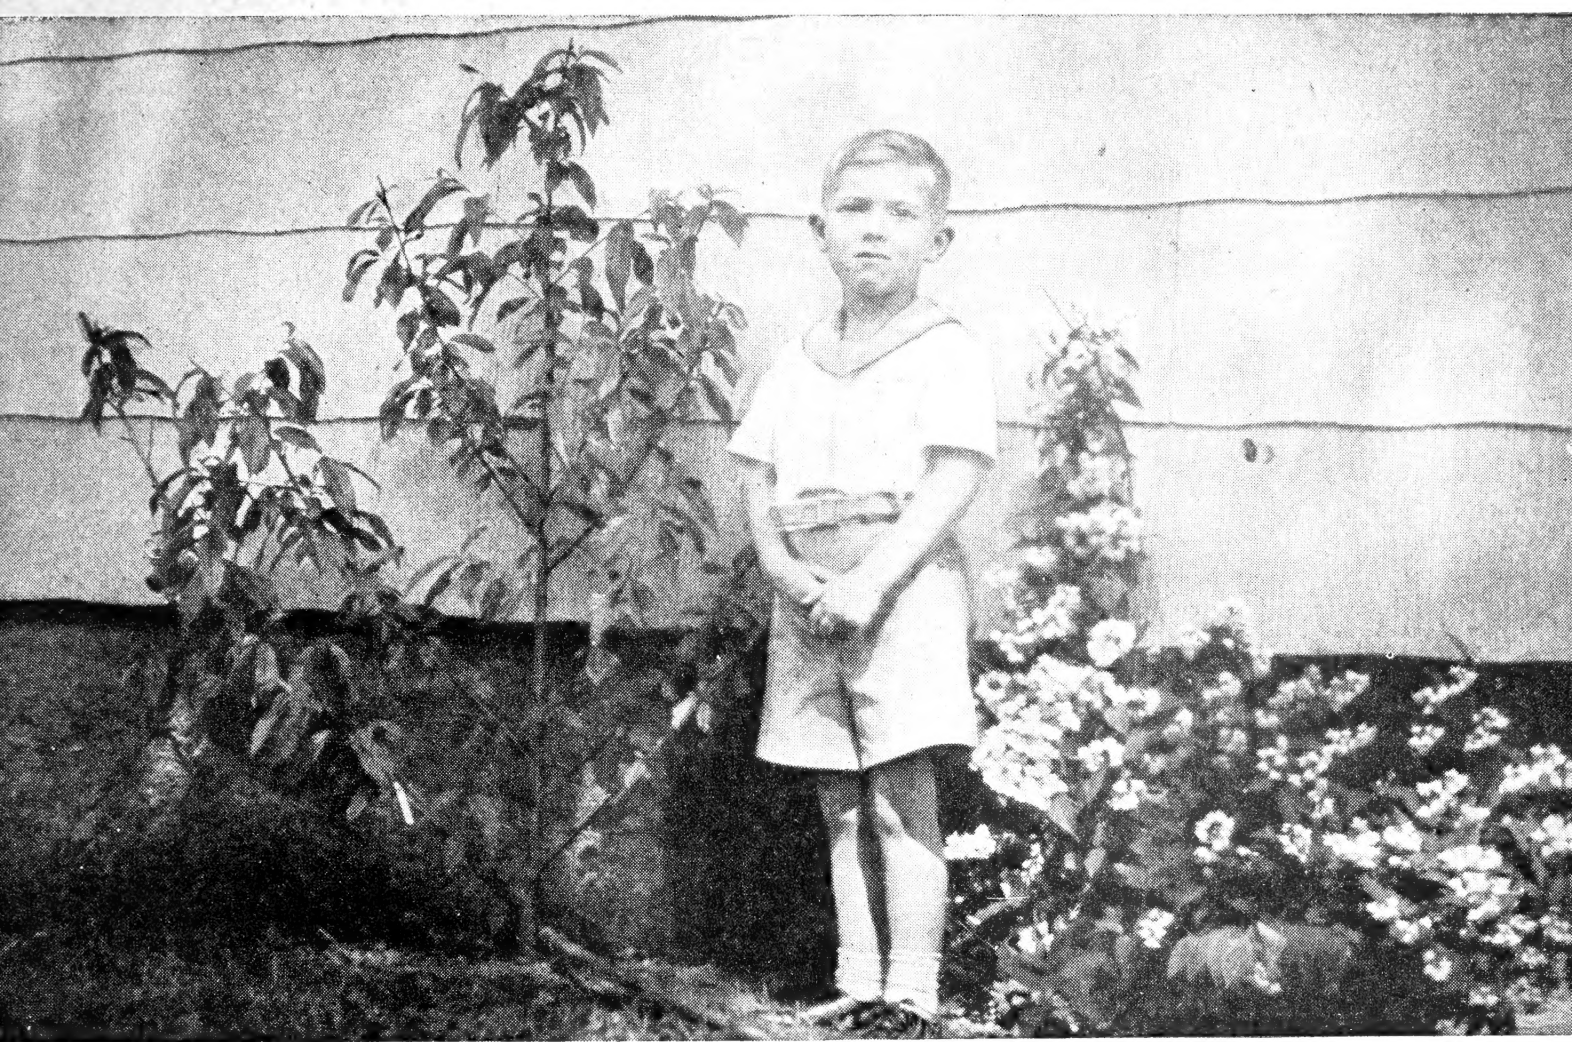

Standard Apple, Sweet Cherry, Walnut, Butternut, Shade Trees.....	25-30 ft.
Chinese Chestnut, Standard Pear, Plum, Sour Cherry, Peach, Nectarine, Apricot Trees.....	15-20 ft.
Dwarf Fruit Trees, Espalier Fruit Trees.....	12-15 ft.
Filbert Nuts, Grape Vines, Boysenberries, Climbing Roses.....	6- 8 ft.
Bush Cherries, Raspberries, Blackberries, Blueberries, Goose- berries, Currants, Rhubarb Roots, Ornamental Shrubs, Shrub Roses, and Vines.....	3- 4 ft.
Everblooming and Polyantha Roses, Dahlias.....	2 ft.
Strawberries, Asparagus, Chrysanthemum, Delphinium, Phlox, Gladiolus....	1 ft.

DWARF FRUIT TREE COLLECTION (Group No. 700)

2 Dwarf Apple Trees, 2 year, 3½ to 4½ ft. (Delicious, McIntosh).

2 Dwarf Pear Trees, 1 year, 2½ to 3½ ft. (Bartlett, Clapp's Favorite).

Total 4 Dwarf Fruit Trees for Small Space and Early Crops for only \$13.00.

A PEACH ESPALIER TREE.

POLLINATION OF FRUIT TREES

- APPLES:** Most varieties need cross-pollination. Plant therefore at least two different varieties. Good pollinators are Cortland, Delicious, and Wealthy. Include one of these varieties in your planting. Latest Observations by the New York State Agricultural Experiment Station, Geneva, N. Y., indicate that Baldwin, Jonathan, Rome Beauty, Rhode Island Greening, and Wealthy are self-fruitful. However, crops are benefited if another variety is planted as a pollinator.
- PEARS:** Most varieties need cross-pollination. Plant therefore at least two different varieties. Bartlett and Seckel do not pollinate each other. Where these two varieties are planted, a third variety should be included. Duchesse d'Angouleme and Flemish Beauty were found to be self-fruitful. However, these varieties, too, are benefited by cross-pollination.
- PLUMS:** Abundance and Burbank need cross-pollination. They pollinate each other. All other varieties which we offer are self-fruitful.
- CHERRIES:** Sweet Cherries need cross-pollination. Plant at least two different varieties. All Sour Cherries are self-fruitful.
- PEACHES:** J. H. Hale requires pollination. Any other peach will pollinate this variety. Other varieties of peaches are self-fruitful.
- APRICOTS, CRAB APPLES, NECTARINES:** They are self-fruitful. However, crops will be increased by planting different varieties for pollination.
- FILBERT NUTS, BLUEBERRIES:** They need cross-pollination. Plant two or more different varieties to insure satisfactory crops.
- Other kinds of fruit trees and berry plants are self-fruitful.

QUINTUPLET APPLE TREES

A tree that produces 5 varieties of apples on one tree. The varieties are **Jonathan, Rome Beauty, Delicious, Yellow Delicious, and Yellow Transparent**. One Quintuplet Apple Tree planted by itself can be expected to produce satisfactory crops without requiring another tree for pollination.

	Each	Per 3	Per 10
Standard Trees, 2-3 year, 4 to 6 ft.....	\$ 3.50	\$ 9.90	\$32.00

RA-PID-GRO FERTILIZER

Your trees and plants will thrive better if you feed them with RA-PID-GRO Fertilizer, a liquid plant food which can be applied safely at time of planting. Feed again every 2 or 3 weeks during the growing season to insure best results.

Trees and plants absorb this fluid plant food immediately and results are usually noticeable in a few days. Complete directions are on every package.

One lb. of RA-PID-GRO Fertilizer is the equivalent of 100 lbs. of any other fertilizer you may have used in the past. Five lbs. are a season's requirement to feed a 40 by 60 ft. lot.

Try RA-PID-GRO Fertilizer at our risk. Your money will be refunded if you should not be pleased with results. Use it regularly — FOR BETTER FRUITS AND MORE BEAUTY.

1 lb.—\$1.25

2 lbs.—\$2.35

5 lbs.—\$4.50

10 lbs.—\$8.75

PRICES AND TERMS: Prices are F. O. B. Geneva, N. Y. Stock will be packed free of charge. Please send cash with order or we will ship C. O. D. if desired.

Quantity rates apply to quantities of ONE kind, one or different varieties. Example: An order on 10 apples in as many varieties as you want takes the rate per 10. An order on 3 apples, 3 pears, 3 cherries, and 3 plums, your choice of varieties, takes the rates per 3.

SPECIAL PRICES. Please write for special prices on larger quantities.

PREPAID SHIPMENTS. If you want us to prepay postage or express charges, please add 5% to the total of your order.

Do not add any amount when you order the Prepaid Special from page 6.

PLANTING INSTRUCTIONS. We will send you a Planting Guide with every order.

SUBSTITUTION. Occasionally we find ourselves out of a certain variety. In such cases we always send the nearest match in color and season unless you instruct not to substitute.

THE MINIATURE ORCHARD (Group No. 701)

Here is a collection of fruit trees which should be planted where space is limited.

Varieties listed in this group are self-fruitful.

1 Quintuplet Apple, 4 to 6 ft.

1 Dwarf Pear (Duchesse d'Angouleme), 2½ to 3½ ft.

1 Standard Peach (Rochester), 5 to 6 ft.

1 Standard Cherry (Montmorency), 4 to 6 ft.

Total 4 Fruit Trees for Small Space and Early Crops, for only
\$10.00.

A 4 year old Dwarf Apple Tree, loaded with delicious fruit.

APPLES

	Each	Per 3	Per 10
Dwarf Trees , 2 year, 3½ to 4½ ft. (Cortland, Delicious, McIntosh, Northern Spy, Yellow Transparent).....	\$ 4.00	\$11.25	\$35.00
Standard Trees , 2 year, 5 to 7 ft. (Any variety listed).....	2.00	5.70	18.00
" " " 4 to 6 ft. (Any variety listed).....	1.60	4.50	14.00

Months after name of variety indicate the time of ripening.

BALDWIN. November-May. A leading commercial sort in New York and New England. Large, bright-red. Tree vigorous and productive. Baldwin has proved to be the most reliable of the self-fruitful varieties.

CORTLAND. November-February. A comparatively new apple that combines the flavor of McIntosh, and the ability to stand handling of the Baldwin. An excellent variety to plant as a cross-pollinator.

DELICIOUS. December-February. One of the finest winter apples. Dark red with crisp, fine grained flesh of excellent flavor. Hardy, vigorous, and annual bearer.

EARLY HARVEST. July-August. An old favorite; the earliest summer apple of good quality. Bears early and regularly.

EARLY MCINTOSH. August. This apple with its pleasing taste and appearance is very similar to McIntosh. Bright solid red, flesh juicy with a sprightly sub-acid flavor.

GRAVENSTEIN. September-October. An excellent autumn apple, tender, juicy, with slightly aromatic flavor.

GRIMES GOLDEN. November-January. Deep yellow fruit with dots of russet. Flesh yellowish white, crisp and moderately juicy, mild sub-acid flavor.

APPLES—Continued

JONATHAN. November-March. A beautiful red apple. Flesh yellow, crisp, tender, and juicy, with a pleasantly acid flavor.

KING. October-March. A beautiful red apple which often brings premium prices on the market because of its attractive appearance and excellent quality. Tree rather slow in coming into bearing but once mature becomes a regular bearer.

McINTOSH. October. Leading commercial sort for New York and New England. A very attractive apple of highest quality. Hardy, bears young and annually.

NORTHERN SPY. November-April. Large red and yellow apple of fine quality. Leading commercial sort. Tree slow in coming into bearing.

RED ASTRACHAN. August. Handsome deep crimson apple, excellent for cooking and baking. Hardy and a good bearer.

RHODE ISLAND GREENING. November-March. Large yellowish green apple of fine quality. An abundant yielder and excellent keeper. Good for cooking and baking.

ROME BEAUTY. November-May. This beautiful apple is brilliant solid red in color, flesh juicy and aromatic. A dependable cropper, highly recommended.

STAYMAN'S WINESAP. December-April. Winesaps prefer a long season. For this reason we recommend their planting in Southern gardens. The fruit is yellow striped with red, and the flesh has a pleasing flavor. Trees start bearing annual crops at an early age.

TOLMAN SWEET. November-April. The leading sweet apple, yellow tinged with red. Hardy and productive.

WEALTHY. October-January. Beautiful, brilliant red apple of fine quality. Exceptionally hardy and an early bearer. Good for cooking and baking.

YELLOW DELICIOUS. October-March. Golden yellow apple, large, juicy, and exceptionally fine quality. Many say this is the finest yellow apple. It bears young and heavily, sometimes bearing at 2 years of age.

YELLOW TRANSPARENT. August. Early yellow apple. Excellent flavor. Trees hardy and abundant bearers.

PREPAID SPECIAL (Group No. 702)

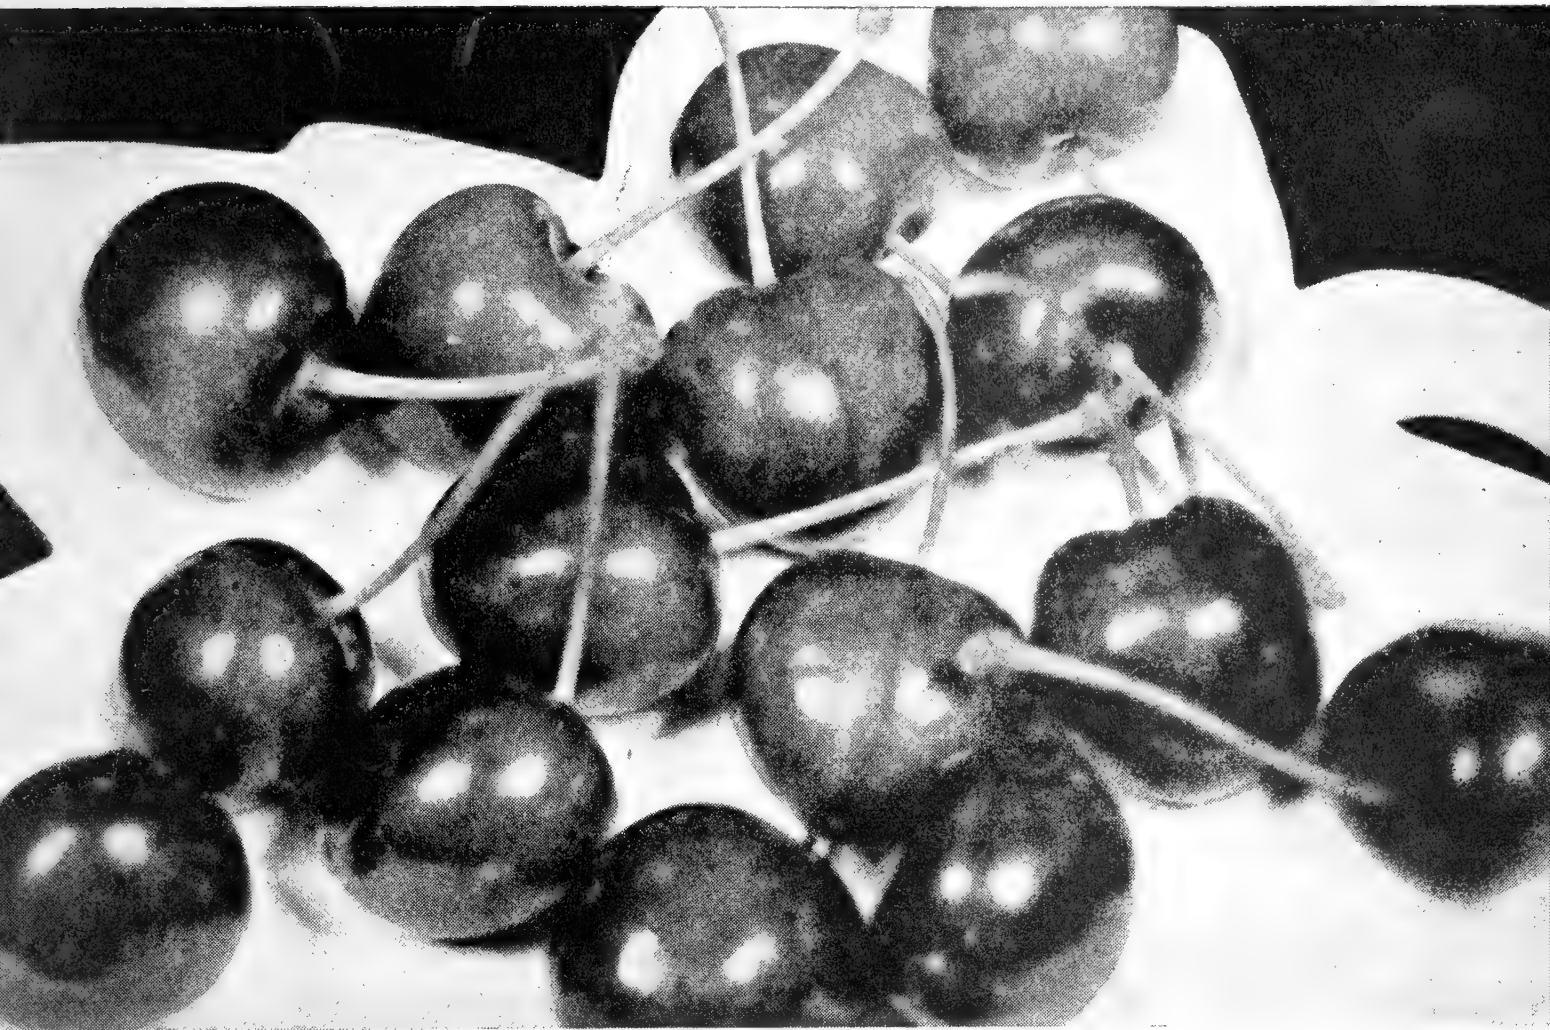

1 Early McIntosh Apple

1 Yellow Delicious Apple

1 Northern Spy Apple

Total 3 Standard Apple Trees, 2 year, 5 to 7 ft., for only \$6.00.

Remember: We prepay express charges on this Special Offer. You may order additional stock from this catalog, any kind and as many as you want (fruit trees, berries, roses, shrubs or anything else), and we will prepay express charges on the whole shipment if ordered with this special.

BLACK OXHEART CHERRIES (Schmidt's Bigarreau).

CHERRIES

	Each	Per 3	Per 10
Fan-Shaped Espalier Trees, 1-2 year, 3 to 4 ft. (Montmorency)	\$ 3.50	\$ 9.90	\$32.00
Standard Trees, 1-2 year, 4 to 6 ft. (Any variety listed)	2.50	7.20	23.00

Months after name of variety indicate the time of ripening.

BLACK TARTARIAN. June. Sweet, bright purplish-black. Juicy and rich. An immense bearer.

EARLY RICHMOND. June. The earliest sour cherry, dark red. Fruits soon after planting, and bears heavily every year.

MONTMORENCY. July. The leading sour cherry, and the best pie cherry. Fruit is good-sized, fine flavored and bright, clear red.

NAPOLEON. July. Sweet, large, pale yellow with bright red cheek.

SCHMIDT'S BIGARREAU. July. Sweet, almost black, very juicy. This is one of the largest of our Oxheart cherries.

WINDSOR. July. A dark red Oxheart cherry, very large, sweet, firm and rich.

OXHEART CHERRY COLLECTION (Group No. 703)

2 Black Oxheart Cherries (Black Tartarian, Schmidt's Bigarreau)

1 Red Oxheart Cherry (Windsor)

1 Yellow Oxheart Cherry (Napoleon)

4 Oxheart Cherry Trees, 1-2 year, 4 to 6 ft., for only \$9.50.

PEARS

	Each	Per 3	Per 10
Dwarf Trees, 1 year, 2½ to 3½ ft. (Bartlett, Cayuga, Clapp's Favorite, Duchesse d'Angouleme, Seckel)	\$ 2.75	\$ 7.80	\$25.00
Standard Trees, 2-3 year, 5 to 7 ft. (Bartlett, Beurre Bosc, Clapp's Favorite, Seckel)	3.00	8.55	27.00
Standard Trees, 1 year, 3 to 5 ft. (Any variety listed)	2.00	5.70	18.00

Months after name of variety indicate the time of ripening.

BARTLETT. September. The leading commercial pear, and the best for canning. Tree bears abundantly. Fruit golden yellow, flesh tender and juicy, with a delicious musky flavor.

BEURRE BOSCH. November-December. Very large, gourd-shaped pear. Brownish-yellow in color. White flesh, rich and delicious. Tree very productive.

CAYUGA. September-November. A new pear, originated at N. Y. State Experiment Station, Geneva, N. Y. Averages as large as Bartlett, and possesses a delectable flavor. The quality is better than any other pear except Seckel, its parent.

CLAPP'S FAVORITE. August-September. Large yellow pear, fine texture, melting, with a rich, sweet, delicate flavor. Tree hardy and very productive. Thrives where other varieties fail.

DUCHESSE D'ANGOULEME. October-November. Excites admiration because of its enormous size and quality. Bears early and abundantly. Blight resistant.

FLEMISH BEAUTY. September-October. Large yellow pear, cheek over-spread with a marble red blush. Flesh yellowish-white, juicy, sweet, with a very good quality.

GORHAM. September. A new variety. Fruit resembles Bartlett, but ripens 2 weeks later and keeps better. The tree is notably resistant to blight.

KIEFFER. November-Spring. Large yellow pear. Flesh very juicy, with a musky aroma. If stored in a cool place will keep until June.

SECKEL. August-October. A delicious little pear that is the standard of excellence in its class. Brown with red cheek. Very productive.

SHELDON. October. Large, yellow fruit with russet skin and red cheek. Flesh melting and juicy, flavor sweet and highly perfumed.

WAITE. November-December. Outstanding as a blight-resistant pear. The flesh is smooth without grit cells, juicy with an acid flavor. Excellent for cooking and canning, and fair for table use.

THE HOME ORCHARD (Group No. 704)

This collection of trees can be expected to yield an ample supply of fruit for an average family throughout the year.

4 Apples (Cortland, McIntosh, Delicious, Yellow Transparent), 2 year, 5 to 7 ft.

3 Pears (Bartlett, Clapp's Favorite, Seckel), 2 year, 5 to 7 ft.

3 Cherries (Black Tartarian, Montmorency, Napoleon), 1-2 year, 4 to 6 ft.

2 Plums (Reine Claude, Stanley Prune), 2 year, 5 to 7 ft.

3 Peaches (Elberta, Golden Jubilee, Hale Haven), 1 year, 5 to 6 ft.

Total 15 Standard Fruit Trees, for only \$32.00.

J. H. HALE PEACHES.

PEACHES

Peaches should be planted in 1 year old trees only, to insure satisfactory results.

	Each	Per 3	Per 10
Fan-Shaped Espalier Trees, 1 year, 4 to 5 ft. (Elberta, Golden Jubilee).....	\$ 3.50	\$ 9.90	\$32.00
Standard Trees, 1 year, 5 to 6 ft. (Any variety listed).....	2.00	5.70	18.00
" " " 4 to 5 ft. (Any variety listed).....	1.60	4.50	14.00

BELLE OF GEORGIA. September. Large, attractive, white-fleshed peach. Hardy and productive. Freestone.

ELBERTA. Late September. The greatest commercial variety on the market. Will thrive where any peach can be grown. Large, yellow, juicy and excellent quality. Freestone.

GOLDEN JUBILEE. September. Large, yellow, tender, juicy and sweet. Freestone. Tree unusually hardy.

HALE HAVEN. September. A promising new variety. Large yellow, very attractive, of good quality. Freestone.

J. H. HALE. Late September. Extra large peach, yellow, of delicious flavor. Freestone.

ROCHESTER. Early September. Large yellow, a very fine canner, prolific, and an early bearer. Freestone. Makes a low growing tree, and should be preferred where space is limited.

PEACH TREE COLLECTION (Group No. 705)
6 Standard Peach Trees, 5 to 6 ft. (1 of each listed) for only \$11.00.

PLUMS

	Each	Per 3	Per 10

ABUNDANCE. August. Fruit large, bright cherry red. Flesh juicy and tender. Freestone. Excellent for canning.

BRADSHAW. September. Large, dark violet red plum of excellent quality and attractive color. Tree bears regularly and heavily.

BURBANK. August. Dark red, unsurpassed for beauty and productiveness. Bears very young.

ITALIAN PRUNE (Fellenburg). September. Dark purple, juicy, delicious. Freestone.

REINE CLAUDE (Green Gage). September. Large, pale yellow, marked with red. Good bearer. The finest plum for eating and canning.

SHROPSHIRE DAMSON. October. Medium size dark purple fruit produced in thick clusters. The tree is enormously productive, bearing a load of fruit annually. Excellent canner.

STANLEY PRUNE. September. Large, dark blue, juicy and sweet. The tree comes into bearing young, bears annually, and the fruit stays on the tree in good condition for a long while. Freestone.

APRICOTS

ALEXANDER. July. Oblong, with orange-yellow skin, spotted with red. A Russian variety of good quality. Tree is a good bearer.

MOORPARK. August. Deep yellow with red cheek. Has the highest quality and finest flavor of all apricots.

NECTARINES

	Each	Per 3	Per 10
Standard Trees, 1 year, 4 to 6 ft.....	\$ 2.00	\$ 5.70	\$18.00

BOSTON. September. Bright yellow, apricot-like flesh, pleasantly flavored. Skin smooth, deep red.

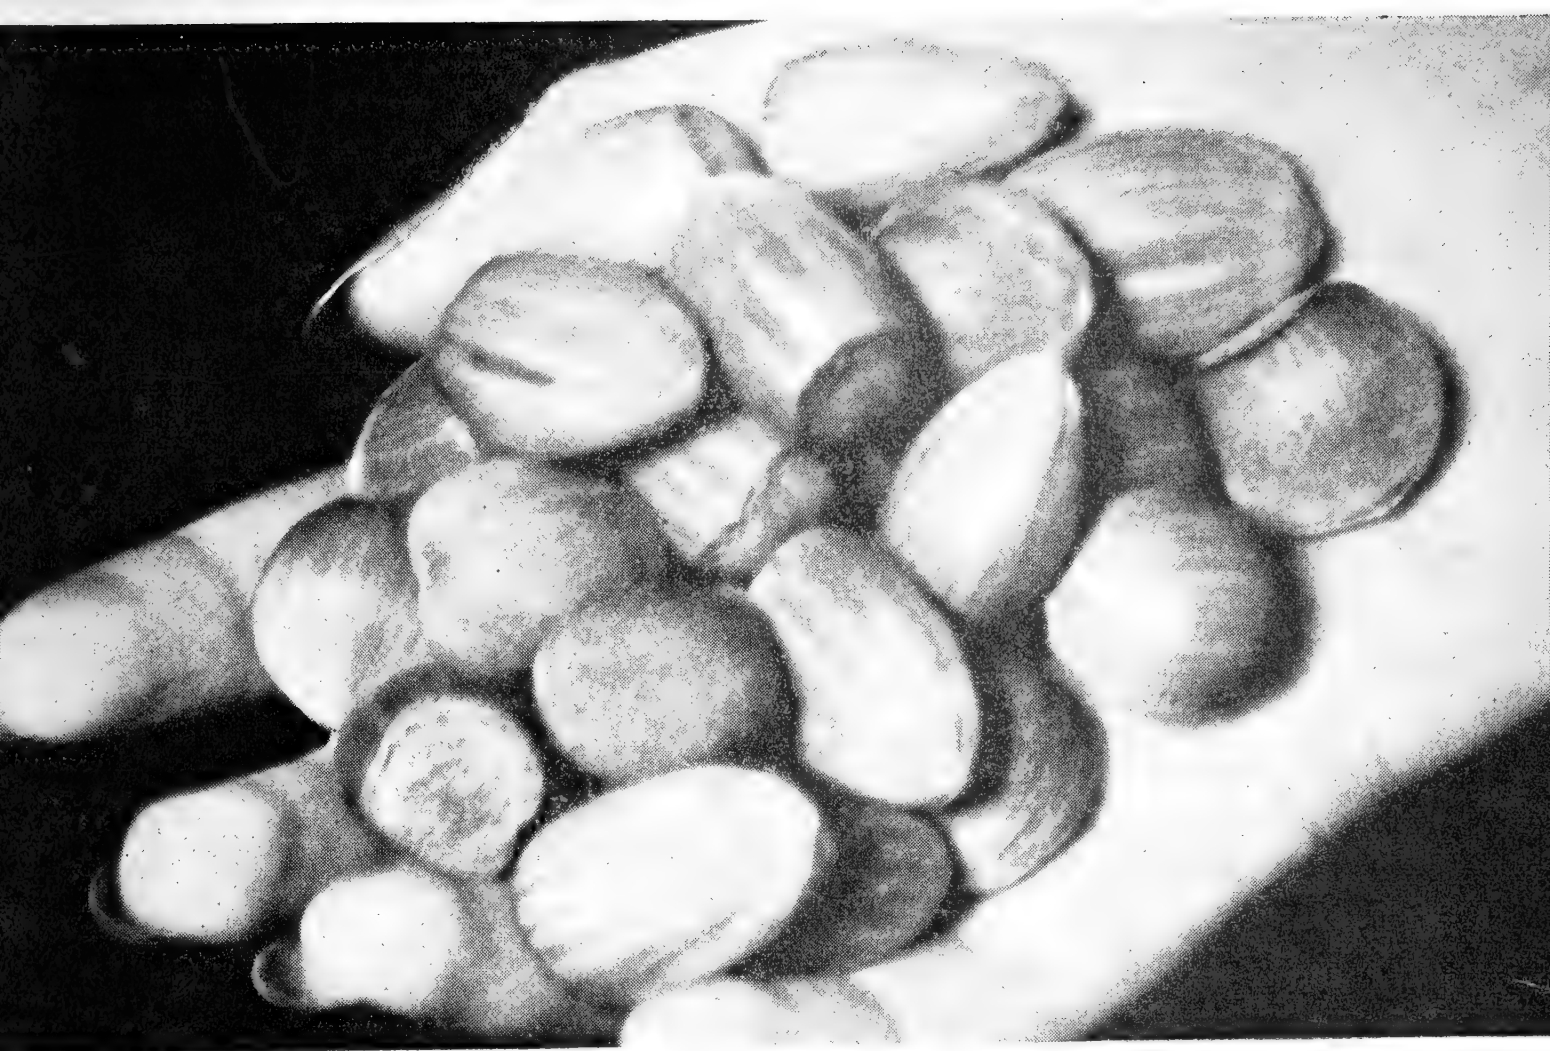

SURE CROP. August-September. The melting, juicy texture of this smooth-skinned nectarine and its delicious flavor furnishes one of the most delightful fruits for eating during the summer. The fruits are as large as good-sized peaches, white, and overlaid with very attractive red.

CRAB APPLES

	Each	Per 3	Per 10
Standard Trees, 2 year, 5 to 7 ft.....	\$ 2.00	\$ 5.70	\$18.00

DOLGO. September. Fruit red, jellies easily, and makes a rich, ruby red jelly of excellent flavor. Bears young and heavily. The tree has a striking appearance with its profusion of blossoms in the spring and its brilliant crimson fruit in the fall.

YOUNG AMERICA. September. Produces abundantly attractive red fruits of excellent size and quality. Jelly made from the fruit is a clear, beautiful red and splendidly flavored. Young America should be planted as ornamental as well as for its fruit.

FILBERT NUTS. They are filled with nutritious meat all through.

HARDY NUTS

Height listed after name of variety indicates size at maturity.

	Each	Per 3	Per 10
Strong Trees, 3 to 5 ft. (Black Walnut, Butternut).....	\$ 2.00	\$ 5.70	\$18.00
" " 3 to 5 ft. (Chinese Chestnut, Filbert Nut, English Walnut)	3.00	8.55	27.00

BARCELONA FILBERT NUT. 8-10 ft. The most dwarfing type of nut tree, hardy in any section where Peach trees are grown. They grow shrub-like. Plant them in your shrub border for beauty and utility. Usually begin to bear the third year.

BLACK WALNUT. 40-60 ft. Fast growing, native tree, valuable for its timber and nuts.

BUTTERNUT. 40-60 ft. The hardiest of the nut trees. Nuts are borne singly or in pairs, kernels very sweet and good.

CHINESE CHESTNUT. 30-40 ft. A blight-resistant strain. Trees start bearing very young, usually the second year. The nuts are larger than those of the American Chestnut and are equally sweet and good.

DU CHILLY FILBERT NUT. 8-10 ft. Similar to Barcelona Filbert Nut. Nuts are oval shaped. Supply limited. Your order can be accepted for only ONE Du Chilly which will pollinate up to 20 Barcelona Filberts.

ENGLISH WALNUT. 40-50 ft. Propagated from trees which are hardy in western New York State. The parent trees located in this vicinity are more than 50 years old and produce regular crops year by year. Kernels are large and of fine flavor.

NUT TREE COLLECTION (Group No. 706)

6 Hardy Nut Trees (1 of each listed) for only \$15.00.

GRAPES

Plant Grape vines on a warm spot, such as a side of a building or board fence. The additional heat of such a side will help to mature your grapes better, especially late varieties such as Caco and Golden Muscat.

A Grape trellis makes a nice division between the vegetable and flower garden.

Select early ripening Grapes such as Fredonia, Portland and Worden, if you are located in the far north where late varieties do not mature. Delaware and Golden Muscat are good wine grapes.

Our 3 year old Concord Grape vines are exceptionally beautiful plants. They were loaded with fruit last summer.

	Each	Per 3	Per 10
Strong Vines, 2 year, No. 1 (Any variety listed).....	\$.60	\$ 1.65	\$ 5.00
" " 3 year, No. 1 (Concord only).....	1.00	2.85	9.00

AGAWAM. A large red grape with rich aromatic flavor.

CACO. This grape is fast becoming a favorite. It yields astonishing harvests, large bunches of enormous gleaming grapes, deep rich red. Their flavor is exceptional, full, sweet, and refreshing.

CONCORD. The leading commercial grape, ripening about September 15. Color blue-black. Bunches and berries large. Excellent for grape juice.

DELAWARE. Berries are small, light red, unusually sweet and delicious. An excellent table grape, and unsurpassed for making wine. Ripens a few days before Concord.

FREDONIA. This is our earliest grape of the Concord type, ripening 15 days earlier than Concord. Color is blue-black, berries and clusters are large.

NIAGARA. The most popular white grape with large bunches and berries.

PORTLAND. An early white grape. It contains much sugar and can be eaten before it is fully ripe. Berries are large and quality is excellent.

WORDEN. A showy blue grape of exceptionally high quality. Fruit is very sweet and juicy. Clusters and berries are large. Ripens ten days ahead of Concord.

NEW GRAPES

	Each	Per 3	Per 10
Strong Vines, 2 year, No. 1.....	\$ 1.50	\$ 4.20	\$13.00

CONCORD SEEDLESS. Fruit resembles Concord in color and flavor but berries are seedless. Clusters and berries are small.

GOLDEN MUSCAT. Clusters are of immense size, up to 2 pounds, and very similar to California grapes. Berries are large, a beautiful light golden color, sweet, vinous, with a fine muscat aroma.

THE HOME VINEYARD (Group No. 707)

10 Grapes. Strong Vines. 2 year. No. 1 (1 of each variety listed)
for only \$6.00.

NEWBURGH RASPBERRIES (Actual Size).

RASPBERRIES

Our 2 year old, transplanted Raspberries are beautiful, heavy plants. They usually begin to bear the first year planted. Plant black raspberries some distance apart from red varieties to insure healthy crops.

	Per 10	Per 25	Per 100
Strong Plants, 2 year, Transplanted.....	\$ 3.00	\$ 7.00	\$25.00

CUMBERLAND. Black. A heavy yielder of large firm berries of delicious flavor.

INDIAN SUMMER. Red. Everbearing Raspberry. Fruit commences to ripen with the earliest and continues to fruit until October. Large size, high quality.

LATHAM. Red. Large, round, a perfect variety for canning. Hardy in coldest sections.

MORRISON. Black. A wonderful new variety. Enthusiastic reports are received of Morrison berries averaging almost 1 inch across.

NEWBURGH. Red. The fruit is very large, very firm, and does not crumble. The weight of the fruit is so great that the canes are often bent to the ground.

SODUS. Purple. Fruit large, firm, does not crumble. Possibly most productive of all.

RASPBERRY COLLECTION (Group No. 708)

This berry garden will bear fruit the first year planted. A full crop of berries can be expected the following year and for many years to come.

10 Everbearing Indian Summer Red Raspberries

10 Morrison Black Raspberries

10 Sodus Purple Raspberries

Total 30 Berry Plants, 2 year, Transplanted, for only \$8.00.

GOOSEBERRIES AND CURRANTS

Gooseberries and currants are fruits whose merits for the home garden and local market are not fully appreciated. They are easy to grow, and they occupy only a small amount of space. They may be grown on places too shady for other plants, thus permitting complete utilization of a limited garden area.

They are very hardy. Heavy, annual crops are the rule, and strong 2 year old plants may produce some fruit the first year planted.

	Each	Per 10	Per 25
Strong Plants, 2 year, Transplanted.....	\$.90	\$ 8.50	\$20.00

CHAMPION GOOSEBERRY. A large, handsome fruit, green in color, thin skinned, tender, juicy, and sweet. An immense cropper, and free of mildew.

POORMAN GOOSEBERRY. Fruit dark red, large and very attractive. Until one is acquainted with the Poorman gooseberry, one does not realize how delicious a gooseberry may be. It requires a rich soil, and does not grow well on very light, sandy soils, where Champion should be preferred.

RED LAKE CURRANT. A new red currant, far superior to all other varieties. Berries are unusually large, up to 1/2 inch diameter. The clusters are up to 4 inches long and are filled out to the top with 8 to 10 juicy melting berries on each cluster.

WHITE GRAPE CURRANT. White currants are fine for dessert because of their mild flavor. You will like to eat them.

THORNLESS BOYSENBERRIES

A tremendous bearer of immense berries, often 2 inches long, and almost seedless. They have a delicious sweet flavor, wonderful to eat or to can.

Boysenberries are trailing vines. Allow canes to trail along the ground the first season, protect them during the winter with straw or similar material, and tie them to a trellis, fence or stakes the following spring, after cutting them back to about 5 ft.

After crop is off, canes have to be cut off entirely, new canes coming from the roots taking their place.

Our 2 year old transplanted Boysenberries are beautiful, heavy plants. They usually begin to bear the first year planted.

	Per 10	Per 25	Per 100
Strong Plants, 2 year, Transplanted.....	\$ 4.00	\$ 9.00	\$30.00

BLACKBERRIES

	Per 10	Per 25	Per 100
Strong Plants, 2 year, Transplanted.....	\$ 3.00	\$ 7.00	\$25.00

ELDORADO. The hardiest and sweetest blackberry. Large berries, in large clusters.

THE BERRY GARDEN (Group No. 709)

5 Champion Gooseberries

5 Red Lake Currants

5 Thornless Boysenberries

5 Eldorado Blackberries

Total 20 Berry Plants, 2 year, Transplanted, for only \$11.00.

RUBEL BLUEBERRIES (Actual Size).

BLUEBERRIES

Blueberris have special soil requirements and are not adapted to so wide a range of soils as are the other fruits. Soils for blueberries should be loose in texture, well supplied with organic matter, and acid. If your soil does not meet these requirements this condition may be created by mixing with the surface soil a liberal quantity of peat moss, partially rotted leaves, pine needles, or sawdust.

Our Bearing-Age Blueberry Plants usually bear some berries the first year planted. They last a lifetime. Plant 2 or more different varieties for pollination.

	Each	Per 3	Per 10
Strong Plants, Bearing-Age, Transplanted, 15 to 20 in.....	\$ 2.75	\$ 7.80	\$25.00
" " 3 year, Transplanted, 12 to 15 in.....	2.00	5.70	18.00

CABOT. Early. First picking late in June. Fruit large, slightly acid and of excellent quality. Bush low (3 to 4 ft.).

CONCORD. Midseason. Large berries, borne in large clusters resembling those of the Concord grape, very acid when first coloring, but becoming of high quality when fully ripe. Bush tall (5 to 6 ft.).

JERSEY. Late. Fruit large, firm, keeping well, acid until dead ripe and of good quality. Tall, well shaped bush (5 to 6 ft.).

PIONEER. Midseason. Berries are very large, many of them measuring over 2 inches around. Bush low (4 ft.), globelike in form.

RANCOCAS. Midseason. Fruit large, light blue, of very good quality. Excellent producer, tending to overbear. Bush tall (5 to 6 ft.).

RUBEL. Late. Berries are sweet with a rich flavor. Has a very long fruiting season, beginning the forepart of July and lasting until August. Bush tall (5 to 6 ft.).

BLUEBERRY COLLECTION (Group No. 710)

6 Blueberry Bushes. Bearing-Age. 15 to 20 in. (1 of each variety listed) for only \$15.00.

BUSH CHERRIES

These are attractive ornamental shrubs which produce edible fruit. However, the fruit cannot be compared with standard cherries with regard to their quality.

Bush Cherries are extremely hardy and bear fruit soon after planting. Plant 2 or more of one kind for cross-pollination. Bush Cherries make a beautiful fruiting hedge.

	Each	Per 10	Per 25
Strong Plants, 2 year, Transplanted.....	\$ 1.25	\$11.00	\$25.00

NANKING CHERRY. Masses of bloom, pink in bud, open a pure white, in early spring, before the leaves appear. An abundance of cherry-like brilliant red fruits covers this beautiful shrub in June. Grows to a height of 6-8 ft.

ROCKY MOUNTAIN CHERRY. Fruit is sweet, purple black, up to 1 inch in diameter, shaped like a plum. The bush is low and spreading, and bears well in poor soil. Rarely growing over 5 ft. in height. Beautiful red foliage in autumn.

R H U B A R B

It is fair to say that you don't know what Rhubarb is until you have tried these new varieties introduced recently from Canada.

	Each	Per 10	Per 25
Large Roots, No. 1.....	\$.90	\$ 8.50	\$20.00

McDONALD. The stalks are up to 2 ft. long, many half as thick as your wrist. The skin is a bright red, and the inside flesh is white. It is very tender and has a rich flavor, far superior to common varieties. A tremendous yielder.

RUBY. The sweetest of all rhubarb, solid red from top to bottom. The inside flesh, too, is colored. The stalks are smaller than McDonald.

F I G S

We do not encourage general planting of Fig trees because their hardiness is limited to southern states.

However, if you have a well protected, warm and sunny place and if you are prepared to give suitable winter protection, you might be able to grow them successfully as far north as Boston, Mass., or Detroit, Mich.

	Each	Per 3	Per 10
Strong Plants, 2 year, 3 to 4 ft.....	\$ 2.50	\$ 7.20	\$23.00

BROWN TURKEY. This is an early variety. Has the habit of bearing on new wood the first season.

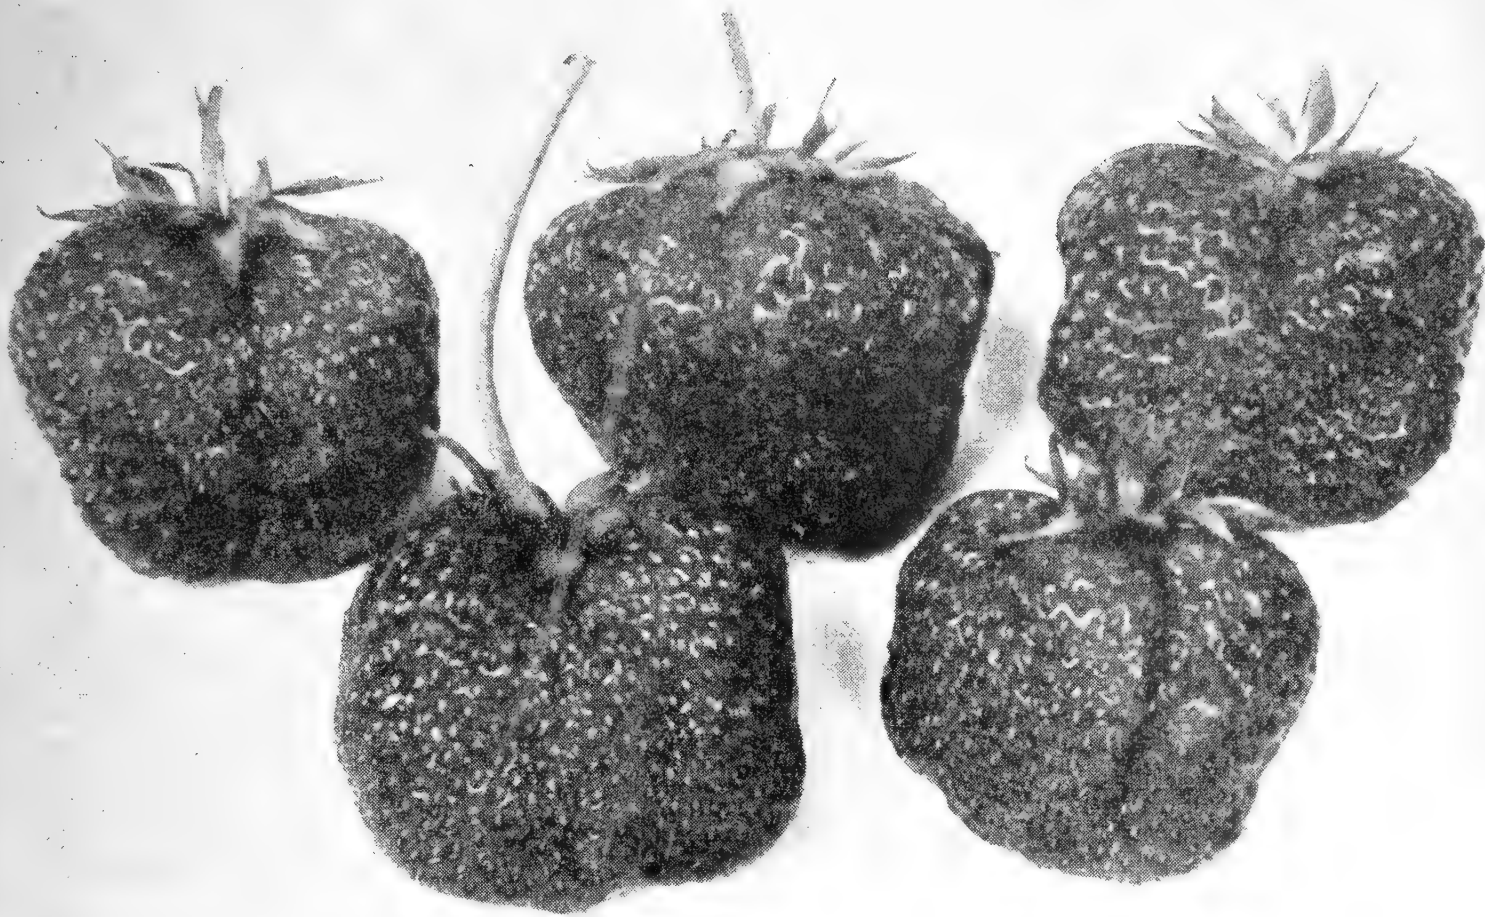

A S P A R A G U S

It takes only a little room to grow your own asparagus. 100 plants, set 1 ft. apart, will provide an average family supply.

Before you plant, fork the soil deeply, pulverize it, and open up flat-bottomed trenches 8 inches deep. Spread the roots out and cover with 2 or 3 inches of soil. As the season progresses, hoe shallowly to keep down the weeds, and gradually fill in all the trenches so the bed will be level again by fall.

	Per 25	Per 100
Strong Plants, 2 year, No. 1.....	\$ 2.50	\$ 8.00

PARADISE. A new rust-resistant variety, yielding 2 to 3 times as much as other kinds. Many stalks are 1 inch or more thick.

FAIRFAX STRAWBERRIES, outstanding for size and flavor.

STRAWBERRIES

Strawberry plants are easy to grow and will succeed in almost any kind of soil. The soil should be thoroughly worked at planting time just as you prepare a seed bed.

	Per 25	Per 100	Per 1000
Everbearing Plants (Gem)	\$ 2.00	\$ 5.00	\$30.00
June-Bearing Plants (Catskill, Dorsett, Fairfax, Premier) ...	1.50	4.00	25.00

CATSKILL. Very large, productive, hardy and healthy. Rapidly becoming a leading variety.

DORSETT. Large berries, evenly matured. Does well on poor soil.

FAIRFAX. An excellent new variety, very large, long fruiting season. One of the best for home use because of its superb quality. It takes only 16 of the largest Fairfax Strawberries to fill a quart basket.

GEM. This Everbearing Strawberry will start bearing late this summer continuously until freezing weather. Large, well rounded berries with a rich sprightly flavor.

PREMIER. Perfectly flavored, smooth and large. The leading variety for commercial planting.

STRAWBERRY COLLECTION (Group No. 711)

This collection should yield an ample supply for an average family, for eating as well as for canning.

250 Strawberry Plants, well rooted (50 of each variety listed)
for only \$12.00.

If you do not want the entire collection we will supply 125 Strawberry plants (25 of each) for only \$6.25.

HEDGES

	Planting Distance	Actual Size	Per 10	Per 25	Per 100
AMUR PRIVET (<i>Ligustrum amurense</i>). The hardiest of the privets.	1 ft.	1½-2 ft.	\$2.50	\$ 5.00	\$18.00
CALIFORNIA PRIVET (<i>Ligustrum ovalifolium</i>). Almost evergreen. Not quite hardy in severe sections.	1 ft.	2-3 ft.	2.50	5.00	18.00
GREEN-LEAF BARBERRY (<i>Berberis Thunbergi</i>). Popular for its low and dense growth.	1½ ft.	1½-2 ft.	5.00	12.00	45.00

FLOWERING VINES

	Each	Per 2	Per 10
Strong Plants, 2 year, No. 1	\$ 1.00	\$ 1.90	\$ 9.00

BITTERSWEET (*Celastrus scandens*). Native vine, producing bunches of orange-red berries, retaining their color over a long period. Popular for winter bouquets.

BOSTON IVY (*Ampelopsis Veitchi*). Clings closely to any wall without support. The leaves grow very thickly overlapping each other, forming a tapestry of rare charm which changes in autumn to beautiful shades of crimson and yellow.

EVERBLOOMING HONEYSUCKLE (*Lonicera Heckrottii*). From June to October the plants are covered with hundreds of fragrant flowers, flame-scarlet outside and gold inside. Equally fine for porch, trellis, or fence. It is perfectly hardy, and thrives in sun or partial shade.

BLUE CLEMATIS (*Clematis Lawsoniana*). An unusually large, bright flower, sky-blue. Blooms in summer and autumn. Prefers a partially shaded location.

PURPLE CLEMATIS (*Clematis Jackmani*). Produces immense purple flowers 4 to 6 inches across. The first flowers appear in July, and they keep coming until September. A partially shaded location is ideal.

RED CLEMATIS (*Clematis Crimson King*). Large red flowers from July until August. Prefers a partially shaded location.

WHITE CLEMATIS (*Clematis Duchess of Edinburgh*). Large double flowers, pure white, deliciously scented. Prefers a partially shaded location.

PURPLE WISTERIA (*Wisteria sinensis*). We offer grafted plants of the Chinese Wisteria which is characterized by large fragrant flowers. They come into bloom very young and all the flowers in each cluster open at about the same time before any leaves appear.

SCARLET TRUMPET HONEYSUCKLE (*Lonicera sempervirens*). Although lacking in fragrance, the flowers of this vine are very showy, a bright scarlet and shaped like a trumpet. They appear in June and continue all summer until late September, followed by attractive yellow berries. Thrives in sunny as well as shady locations.

SILVER LACE VINE (*Polygonum Auberti*). The fastest growing hardy vine, usually growing 15 to 20 ft. the first year. From the middle of summer until late fall covered with thousands of white flowers.

SWEET AUTUMN CLEMATIS (*Clematis paniculata*). Fragrant star-like flowers, creamy-white, an inch across, are produced in reckless abundance in September. Later, its feather-like seed pods create the illusion of a second blooming period. Grows 20-30 ft. with unusual rapidity.

TRUMPET VINE (*Bignonia radicans*). Orange-red, trumpet-shaped blossoms make it one of our most decorative vines. The flowers are 5 to 6 inches long. They appear in clusters for many weeks in midsummer.

SWEET AUTUMN CLEMATIS (See page 18).

GROUND COVER VINES

These vines are recommended for planting on places where due to shade or unfavorable soil conditions nothing else will thrive.

	Each	Per 10	Per 25
Strong Plants, 2 year, No. 1.....	\$.60	\$ 5.00	\$12.00

HALL'S HONEYSUCKLE (*Lonicera Halleana*). One of the most popular ground covers, also frequently grown over fences. Exceedingly fragrant buff flowers which attract bees and humming birds. The foliage is almost evergreen and keeps its deep green color until early spring.

CHINESE MATRIMONY VINE (*Lycium chinense*). An excellent ground cover that grows in the most dry and difficult situation. Particularly good for seashore planting and perfect for holding banks. Attractive violet flowers appear in June, followed by enormous quantities of brilliant crimson berries that hang into the winter. The berries make excellent food for birds.

VIRGINIA CREEPER (*Ampelopsis quinquefolia*). A splendid ground cover, especially on sandy soils where no other vegetation will grow. Unsurpassed in beauty by any other vine in autumn when the leaves turn to the most vivid tones of crimson, scarlet and orange.

FLOWERING SHRUBS (I)

Plant these shrubs around your home or along your border for year around beauty. Many of them will bloom the first year planted. Dwarf Red Spirea, Red Flowering Quince and White Spirea make excellent hedges.

	Each	Per 3	Per 10
Heavy, 2 year shrubs, 2 to 3 ft. and 3 to 4 ft.....	\$ 1.00	\$ 2.85	\$ 9.00

Listed in order of ultimate height.

	Maturity Height
DWARF RED SPIREA (<i>Spirea Anthony Waterer</i>). Flat heads of red flowers almost all summer. A popular shrub which succeeds everywhere, also in partly shady places.	3-4 ft.
DWARF WHITE SPIREA (<i>Spirea Thunbergi</i>). A graceful shrub with masses of miniature white flowers early in spring. The feathery foliage turns a brilliant orange-scarlet in the fall.	3-4 ft.
DWARF PINK SPIREA (<i>Spirea Billiardi</i>). Tall spikes of deep pink flowers in July and August when most other shrub blossoms have faded. Thrives everywhere, even in dry places.	4-5 ft.
DWARF MOCKORANGE (<i>Philadelphus Bouquet Blanc</i>). A graceful shrub with slender branches and a myriad of fragrant white flowers that make the plant look like a large bouquet in June and July.	4-5 ft.
PINK BUTTERFLY BUSH (<i>Buddleia Charming</i>). Elegant long sprays covered with lovely pink blossoms throughout the summer and autumn.	4-6 ft.
PURPLE BUTTERFLY BUSH (<i>Buddleia Isle de France</i>). The same shrub with dark claret-purple flowers.	4-6 ft.
DUBONNET BUTTERFLY BUSH (<i>Buddleia Dubonnet</i>). A new dark wine colored Butterfly Bush with extra large spikes and individual flowers.	4-6 ft.
BRIDALWREATH (<i>Spirea prunifolia</i>). This is the true bridalwreath. Tiny, double, button-like white spring flowers by the thousand are born like garlands along the slender, graceful branches. Leaves turn orange-scarlet in fall.	5-6 ft.
RED FLOWERING QUINCE (<i>Cydonia japonica</i>). This is the old-fashioned Fire-Bush. A gorgeous sight with its scarlet blossoms.	5-6 ft.
WHITE SPIREA (<i>Spirea van Houttei</i>). America's most popular shrub. Succeeds everywhere.	5-6 ft.
DEUTZIA (<i>Deutzia Pride of Rochester</i>). A splendid shrub which grows in sun or partial shade; at blooming time in June, a perfect mass of lovely double flowers of white tinged pink.	6-8 ft.
PINK WEIGELA (<i>Weigela rosea</i>). Beautiful, bell-shaped pink flowers, borne profusely along circling branches.	6-8 ft.
CHINA LILAC (<i>Syringa chinensis</i>). Slender arching branches bear large broad clusters of fragrant purple-lilac flowers. Different from any other lilac and very attractive.	8-10 ft.
GOLDEN BELL (<i>Forsythia intermedia spectabilis</i>). Masses of bright yellow flowers before the leaves appear, sometimes before the snow is gone. You may cut branches any time after January. Place them in water and they will bloom indoors long before spring arrives.	8-10 ft.
WEeping FORSYTHIA (<i>Forsythia suspensa</i>). A Golden Bell with long, slender branches drooping gracefully to the ground, entirely covered with yellow blossoms early in the spring.	8-10 ft.
SWEET MOCKORANGE (<i>Philadelphus coronarius</i>). An old favorite with all gardeners. Fragrant cream-white flowers in May-June.	8-10 ft.
GOLDLEAF NINEBARK (<i>Spirea opulifolia aurea</i>). Striking golden foliage and clusters of white flowers. A very attractive shrub which deserves greater popularity.	8-10 ft.
PINK ROSE OF SHARON (<i>Hibiscus syriacus anemonaeiflorus</i>). Colorful shrub with double pink flowers in August and September.	8-10 ft.

ROSE OF SHARON.

FLOWERING SHRUBS—Continued

	Maturity Height
PURPLE ROSE OF SHARON (<i>Hibiscus syriacus ardens</i>). Double, clear violet blossoms in great profusion from August until late fall.	8-10 ft.
RED ROSE OF SHARON (<i>Hibiscus syriacus Boule de Feu</i>). Double red blossoms in August and September. Very colorful and attractive.	8-10 ft.
WHITE ROSE OF SHARON (<i>Hibiscus syriacus Jeanne d'Arc</i>). Double pure white flowers cover this shrub in August and September.	8-10 ft.
PURPLE LILAC (<i>Syringa vulgaris</i>). The old-fashioned single lilac, delightfully fragrant.	12-15 ft.
PINK LILAC (<i>Syringa villosa</i>). A late lilac, producing beautiful clusters of pink flowers, extending the lilac season for several weeks.	12-15 ft.
WITCH HAZEL (<i>Hamamelis virginiana</i>). The Witch Hazel produces curious bright yellow flowers late in the fall or even during the winter. The large leaves turn yellow, orange, or purple in the fall.	12-15 ft.
FRENCH PUSSY WILLOW (<i>Salix caprea</i>). Snow may still cover your lawn when you cut your first spring bouquets from your Pussy Willow shrubs. Soft and silvery, large catkins cover the bush for many weeks.	12-15 ft.

THE EVERBLOOMING SHRUB BORDER (Group No. 712)

By planting many different varieties your shrub border may be in bloom from early spring until late fall.

25 Flowering Shrubs (1 of each listed) for only \$20.00.

If you do not want the entire collection, select just those you wish at the following prices: 3 for \$2.85, 10 for \$9.00.

FLOWERING SHRUBS (II)

This is a collection of lovely shrubs of outstanding beauty. Many of them will bloom the first year planted.

	Each	Per 3	Per 10
Heavy, 2 year shrubs, 2 to 3 ft. and 3 to 4 ft.....	\$ 1.50	\$ 4.20	\$13.00

Listed in order of ultimate height.

Maturity
Height

RED WEIGELA (<i>Weigela Eva Rathke</i>). A fountain of crimson with its rich bell-shaped, ruby-red flowers covering the whole shrub.	4-5 ft.
HILLS OF SNOW (<i>Hydrangea arborescens grandiflora</i>). This grand shrub is especially fine for shady places like the north side of a house. In mid-summer it is covered with immense rounded heads of white flowers.	4-5 ft.
PINK ALMOND (<i>Amygdalus glandulosa</i>). A beautiful small shrub, bearing an abundance of small, double, rose-like flowers, closely set upon twigs before the leaves appear.	5-6 ft.
BEAUTY BUSH (<i>Kolkwitzia amabilis</i>). A charming oriental shrub with bell-shaped pink flowers, completely covering the shrub in the spring. Plant in good soil, and do not expect too much bloom the first two years.	5-6 ft.
ROSE TREE OF CHINA (<i>Prunus triloba</i>). This beautiful shrub is completely covered with double pink flowers resembling small roses in early spring.	6-8 ft.
VIRGINAL MOCKORANGE (<i>Philadelphus Virginal</i>). A wonderful shrub with waxy semi-double flowers, the largest and most fragrant of all mockoranges, blooming for a long season.	6-8 ft.
PEEGEE HYDRANGEA (<i>Hydrangea paniculata grandiflora</i>). The immense cone-shaped blooms are white at first, then turn pink and bronze. Grows in sun or partial shade and is hardy everywhere.	8-10 ft.
WINGED BURNING BUSH (<i>Euonymus alatus</i>). Yellow flowers in May or June, followed by orange and red berries. Interesting corky bark. Leaves turning brilliant crimson in autumn.	8-10 ft.
SNOWBALL (<i>Viburnum opulus sterilis</i>). Hundreds of pure white balls cover this popular shrub which thrives in sun or partial shade.	10-12 ft.
EUROPEAN CRANBERRY BUSH (<i>Viburnum opulus</i>). A shrub with white flowers and scarlet clusters of juicy berries. The fruit is tart and edible. Beautiful crimson foliage in fall.	10-12 ft.
AMERICAN SMOKE TREE (<i>Rhus cotinus</i>). One of the most beautiful and unusual plants. From mid-summer until autumn surmounted with masses of feathery panicles of flowers which give the effect of a cloud of smoke. Makes a unique specimen on the lawn.	10-12 ft.
BECHTEL'S CRAB (<i>Malus ioensis plena</i>). A beautiful double pink flowering crab with fragrant flowers in May-June, covering the whole tree.	12-15 ft.
EUROPEAN BURNING BUSH (<i>Euonymus europaeus</i>). A quite unusual shrub. After the beautiful reddish autumn foliage has fallen, pink fruits which break open displaying bright orange seeds hang over the shrub like Christmas ornaments.	12-15 ft.
CORNELIAN CHERRY (<i>Cornus mas</i>). Clusters of yellow flowers cover this shrub long before spring arrives. Almost overnight the shrub bursts into blossom, later bearing red edible fruit resembling small cherries.	15-20 ft.
JUNE LILAC (<i>Syringa japonica</i>). This is one of the rarest kinds of lilacs. The majestic clusters of yellowish-white flowers in June last for a long time.	20-25 ft.

FLOWERING SHRUBS (Group No. 713)

15 Shrubs of outstanding beauty (1 of each listed) for only \$19.00.

If you do not want the entire collection, select just those you wish at the following prices: 3 for \$4.20, 10 for \$13.00.

PEEGEE HYDRANGEA (See page 22).

FRENCH LILACS

These are budded varieties, unsurpassed for beauty and fragrance. They begin to bloom the second year and grow 10 to 12 ft. tall at maturity.

	Each	Per 3	Per 10
Heavy, 2-3 year shrubs, 2 to 3 ft.....	\$ 2.00	\$ 5.70	\$18.00

ALPHONSE LAVALLE. Large clusters of double flowers, a beautiful blue, shaded with violet.

CHARLES JOLY. Dark reddish purple with silvery reflex. One of the best of the double reds.

CHARLES TENTH. Single flowers, reddish-violet, borne in massive clusters which literally cover the entire bush.

KATHARINE HAVEMEYER. Double violet-red, purple-lilac inside. An excellent colorful variety.

LUDWIG SPAETH. Large single blossoms of splendid dark purplish red color. If you plant only one lilac, select this variety. Its beauty and fragrance are unexcelled.

MARIE LEGRAYE. Large single flowers, creamy-white.

MME. CASIMIR PERIER. Large double white flowers in large well-filled clusters. The leading double white lilac.

PRESIDENT GREVY. A clear soft delicate blue. Large double flowers in large pyramidal clusters.

FRENCH LILAC COLLECTION (Group No. 714)

8 French Lilac Shrubs (1 of each listed) for only \$15.00.

BERRY-BEARING SHRUBS

These are ornamental shrubs which have beautiful blossoms in spring, followed by attractive berries in summer, fall, and winter. They attract birds which are your best help in curbing insect damage. Red-Leaf Barberry, Sweetbriar Rose, White Honeysuckle and Pink Honeysuckle make excellent hedges. Plant a border of berry-bearing shrubs—FOR BIRDS AND SONG, FOR BETTER FRUITS AND MORE BEAUTY.

	Each	Per 3	Per 10
Heavy, 2 year shrubs, 2 to 3 ft. and 3 to 4 ft.....	\$ 1.00	\$ 2.85	\$ 9.00

Listed in order of ultimate height.

Maturity
Height

RED-LEAF BARBERRY (<i>Berberis Thunbergi atropurpurea</i>). A colorful barberry with yellow flowers in spring, brilliant red foliage throughout summer and fall, and red berries during winter. Plant in full exposure to sun for best color effect.	4-5 ft.
JETBEAD (<i>Rhodotypos kerrioides</i>). A graceful shrub which produces attractive white flowers on branch ends more or less continuously from late spring until frost. The black berries hang on until following spring. Does well in dry and partially shaded soil.	4-5 ft.
SNOWBERRY (<i>Symphoricarpos racemosus</i>). Large white berries cover the shrub in September and October. Does well in shady places.	4-6 ft.
CORALBERRY (<i>Symphoricarpos vulgaris</i>). Small pink flowers in spring followed by coral-red berries in October and November.	4-6 ft.
SWEETBRIAR ROSE (<i>Rosa rubiginosa</i>). A charming shrub, unique by the sweet fragrance of its leaves, especially when wet. Flowers are single pink, followed by red fruits.	5-8 ft.
CHOKEBERRY (<i>Aronia arbutifolia</i>). Gracefully arching branches bear a profusion of bright red berries throughout most of the winter.	6-8 ft.
ARROWWOOD (<i>Viburnum dentatum</i>). White flower clusters in spring and blue berries in fall. Does well in shady places.	6-8 ft.
CORAL DOGWOOD (<i>Cornus alba sibirica</i>). Coral-red branched, upright growing shrub which does well in shady places. Flat white flowers and clusters of bluish tinted white berries.	8-10 ft.
GOLDENTWIG DOGWOOD (<i>Cornus stolonifera flaviramea</i>). A Dogwood with golden branches, white flowers and bluish white berries. Plant this shrub close to Coral Dogwoods for a striking color contrast during the winter.	8-10 ft.
GOLDEN ELDER (<i>Sambucus canadensis aurea</i>). A golden-leaf form of the American Elder. White flower clusters 10 inches across in late June, and an abundance of purplish-black fruit thereafter. Does well in partial shade.	8-10 ft.
CUT-LEAF ELDER (<i>Sambucus canadensis acutiloba</i>). The same shrub, with dark green, fine cut, fern-like foliage.	8-10 ft.
PEKING COTONEASTER (<i>Cotoneaster acutifolia</i>). Small reddish flowers are followed by black fruit and brilliant fall coloring.	10-15 ft.
WHITE HONEYSUCKLE (<i>Lonicera tartarica alba</i>). Fast growing shrub with white flowers in the spring and attractive red berries later on.	10-15 ft.
PINK HONEYSUCKLE (<i>Lonicera tartarica rosea</i>). Strong grower. Covered in spring with pink flowers, in summer and fall with red berries.	10-15 ft.
RUSSIAN OLIVE (<i>Elaeagnus angustifolia</i>). A fast growing shrub with silvery leaves and branches, and white berries. The silvery flowers, yellow inside, emit a spicy fragrance in spring.	15-20 ft.

THE BIRD PARADISE (Group No. 715)

15 Berry-Bearing Shrubs (1 of each listed) for only \$13.00.

If you do not want the entire collection, select just those you wish at the following prices: 3 for \$2.85, 10 for \$9.00.

SAUCER MAGNOLIA.

3- 4 ft.	10.00

FRAGRANT SNOWBALL (*Viburnum Carlesi*). 5-6 ft. Waxy white, deliciously fragrant flowers are produced very early in spring. A dwarfing shrub, beautiful to plant on the entrance to your home. Grows in sun and semi-shade.

GOLDEN CHAIN TREE (*Laburnum Vossi*). 12-15 ft. A rare and beautiful tree. Bears in the spring a mass of golden flowers in graceful clusters 12 to 18 inches long.

JAPANESE CRAB (*Malus floribunda*). 12-15 ft. Pink flower buds open into a spectacular flood of white blossoms which completely hide the branches. Later in the season the tree is adorned with tiny yellow apples.

BLOOD-LEAF PLUM (*Prunus cistena*). 12-15 ft. A colorful shrub with deep purple leaves all season. Even the bark and wood is purple. Its foliage makes an attractive contrast to the green of the lawn.

WHITE DOGWOOD (*Cornus florida*). 15-20 ft. Flowers 3 to 3½ inches in diameter cover the tree in spring. The foliage changes to gorgeous reds in the fall. Scarlet fruits add to their beauty.

PINK DOGWOOD (*Cornus florida rubra*). 15-20 ft. A beauty in spring with its profusion of reddish pink flowers. Deep red foliage and scarlet fruits in autumn.

SAUCER MAGNOLIA (*Magnolia Soulangeana*). 15-20 ft. Delightfully fragrant flowers, pink in bud and white when open, cover the tree in spring before leaves appear. They are hardy as far north as Boston, Mass., or Detroit, Mich. Our trees have flower buds to bloom for you this spring.

GARDEN ARISTOCRATS—Continued

	Actual Size	Each
DOUBLE SCARLET HAWTHORN (<i>Crataegus ox. splendens</i>). 15-20 ft. A beautiful tree, in May-June covered with double red flowers over and over, followed by red berries.	4- 5 ft.	4.00
RED FLOWERING CRAB (<i>Malus Hopa</i>). 20-25 ft. The tree is literally covered with large, rose-colored fragrant flowers in the spring, and clusters of bright red fruits in late summer and fall. Grows on the poorest soil.	5- 6 ft.	3.50
AMERICAN RED BUD (<i>Cercis canadensis</i>). 20-25 ft. Also known as Judas Tree. A picturesque tree, unusually arresting in early spring when branches are covered with clusters of pink flowers.	3- 4 ft.	2.00
JAPANESE CHERRY (<i>Prunus Kwanzan</i>). 25-30 ft. Double Flowering Cherry with pink blossoms very early in spring.	4- 6 ft.	4.00
PINK HORSECHESTNUT (<i>Aesculus rubicunda</i>). 40-50 ft. Great trusses of deep pink flowers beautify this roundish pyramid.	5- 6 ft.	8.00
SOUTHERN MAGNOLIA (<i>Magnolia grandiflora</i>). 60-80 ft. Very fragrant, creamy-white blossoms and shiny, leathery leaves. In bloom from April to August. Its 8 inch flowers, like giant roses, cast their fragrance far and wide. You can enjoy this beautiful tree as far north as Long Island, if planted on a warm and sunny location.	2-3 ft.	6.00

HARDY SHRUB ROSES

A collection of Old-Fashioned Roses, Rugosa Hybrids, Hybrid Perpetuals, and June Roses. They are hardy in coldest sections and easy to grow. They grow 4 to 6 ft. tall at maturity but they can be kept slightly lower by proper pruning. They make beautiful hedges.

	Each	Per 3	Per 10
Extra Heavy Selected Bushes , 2 year, field-grown, No. 1 . . .	\$ 1.25	\$ 3.60	\$11.00
BELLE POITEVINE. A double pink Rugosa Rose, blooming in large clusters all summer. Very lovely.			
F. J. GROOTENDORST. Clusters of bright red, very double flowers with fringed petals similar to a carnation. Blooms all summer and succeeds everywhere. Combines the flowers and everblooming habit of the Polyanthas with the Rugosa vigor.			
F. K. DRUSCHKI. Very large, snow white, double flowers, not fragrant. The magnificent blooms are borne profusely in spring and at intervals during the summer.			
GEORGE AHREND. Double pink flowers of immense size are produced with great freedom. Very fragrant.			
GOLDEN ROSE OF CHINA (<i>Rosa hugonis</i>). A beauty spot in June, when the graceful arching branches are covered with single golden flowers, 2½ inches across.			
HANSA. A Rugosa Rose with semi-double crimson flowers. Blooms continuously.			
HARRISON'S YELLOW. Semi-double flowers, bright golden yellow, sweetly fragrant, cover the branches in spring, making graceful long sprays of exquisite beauty.			
HUGH DICKSON. Dark red velvety flowers, very large, double, and very fragrant.			
MAGNA CHARTA. Very large and very double flowers, bright pink suffused with carmine, heavily perfumed. A profuse bloomer.			
PAUL NEYRON. Enormous blooms, deep rosy pink, on stems which carry few thorns. Very double and very fragrant. Gives a wealth of bloom in spring and again in the fall. One of the largest of all roses, often measuring 5 inches across.			
RUGOSA ROSE (<i>Rosa Rugosa</i>). Produces single reddish-purple flowers from May until September and very large red and orange fruits.			
SIR THOMAS LIPTON. A double white Rugosa Rose, blooming the entire summer.			

HARDY SHRUB ROSE COLLECTION (Group No. 716)

12 Old-Fashioned Shrub Roses (1 of each listed) for only \$13.00.

SHADE TREES

Height listed after name of variety indicates size at maturity.

Listed in order of ultimate height.

	Actual Size	Each	Per 10
EUROPEAN MOUNTAIN ASH (<i>Sorbus aucuparia</i>). 20-40 ft. One of the most ornamental of all trees. Clusters of flashy orange colored fruits from midsummer until late fall.	8-10 ft.	\$ 4.00	\$38.00
FLOWERING CATALPA (<i>Catalpa speciosa</i>). 30-40 ft. Rapid growing tree with large heart-shaped leaves and panicles of white flowers in June.	6- 8 ft.	2.00	19.00
WHITE BIRCH (<i>Betula alba</i>). 30-40 ft. The gleaming white bark is beautiful summer and winter.	6- 8 ft.	3.50	33.00
CUT-LEAF WEEPING WHITE BIRCH (<i>Betula alba laciniata</i>). 30-40 ft. A graceful, white barked tree with drooping limbs and cut-leaved foliage.	6- 8 ft.	4.50	42.00
RED-LEAF SCHWEDLER MAPLE (<i>Acer Schwedleri</i>). 40-50 ft. In the spring the foliage is reddish-purple, in midsummer it is bronzy-green, and in the fall golden-yellow.	6- 8 ft.	5.00	47.00
CHINESE ELM (<i>Ulmus pumila</i>). 40-50 ft. A rapid grower, with small attractive leaves. Extremely hardy in severe sections.	8-10 ft.	3.00	28.00
GOLDEN WEEPING WILLOW (<i>Salix Niobe</i>). 40-50 ft. Rapid growing tree with golden yellow bark which makes the tree attractive summer and winter.	6- 8 ft.	2.50	23.00
EUROPEAN LINDEN (<i>Tilia cordata</i>). 50-60 ft. A beautiful shade tree. Sweet-scented cream-colored blossoms cover the tree in mid-summer.	8-10 ft.	5.00	47.00
SILVER LINDEN (<i>Tilia tomentosa</i>). 50-60 ft. Leaves are green above, silvery-white beneath. Fragrant yellowish blossoms in June-July add to their beauty.	8-10 ft.	5.00	47.00
SUGAR MAPLE (<i>Acer saccharum</i>). 50-60 ft. A native American tree, most colorful in fall when its leaves are bright yellow, orange and scarlet. The tree thrives in sun as well as in shade and furnishes sap from which maple sugar is made.	6- 8 ft.	3.50	33.00
NORWAY MAPLE (<i>Acer platanoides</i>). 50-60 ft. A fast growing maple, making a compact well shaped tree, with dense rich foliage, deep green all summer.	6- 8 ft.	3.50	33.00
PIN OAK (<i>Quercus palustris</i>). 50-60 ft. A majestic tree, the fastest growing of the oaks. Tree grows in symmetrical, broadly pyramidal form and the foliage colors to a beautiful coppery-red in the fall.	6- 8 ft.	4.00	38.00
RUSSIAN MULBERRY (<i>Morus alba</i>). 50-60 ft. An abundance of white or purple edible berries decorate this beautiful tree in June.	5- 6 ft.	2.00	19.00
SILVER MAPLE (<i>Acer dasycarpum</i>). 60-80 ft. The fastest growing of the maples. Foliage silvery on the underside and beautifully colored in the fall. Provides good shade very quickly.	6- 8 ft.	2.50	23.00
LOMBARDY POPLAR (<i>Populus nigra italica</i>). 60-80 ft. Narrow-growing tree, likewise effective for specimen planting as for boundary lines and entrances. Excellent as windbreak.	6- 8 ft.	1.25	11.00

CLIMBING ROSES

Ideal to cover a porch, arbor, or fence with beautiful roses.

	Each	Per 3	Per 10
Heavy Bushes, 2 year, field-grown, No. 1.....	\$ 1.25	\$ 3.60	\$11.00

DR. VAN FLEET. Long-pointed buds open into large pink flowers.

PAUL'S SCARLET. The most beautiful red climbing rose. Its bright scarlet flowers are produced so abundantly that the plants are covered with hundreds of blooms. Paul's Scarlet Climbing Roses can be used as a flowering hedge. Planted without trellis or similar support they form a dense hedge about 4 ft. high which is a mass of color in June.

PRIMROSE. Hardy yellow climber with large double flowers in great profusion.

POLYANTHA ROSES

Polyantha Roses produce small double flowers in immense clusters, many times a single stem carrying a veritable bouquet. They grow 2 to 3 ft. tall, and bloom from early June, without stopping, until severe frost. Plant them in front of a border of shrubs or evergreens, or as a hedge along a walk.

	Each	Per 3	Per 10
Heavy Bushes, 2 year, field-grown, No. 1.....	\$ 1.25	\$ 3.60	\$11.00

CAMEO. Bright salmon.

IDEAL. Dark scarlet red.

GOLDEN SALMON. Orange-salmon.

ORLEANS. Cherry-red.

EVERBLOOMING ROSES

Our field-grown bushes bloom the first year. Lovely flowers are produced continuously from June until late fall.

	Each	Per 3	Per 10
Heavy Bushes, 2 year, field-grown, No. 1.....	\$ 1.25	\$ 3.60	\$11.00

AMI QUINARD. Velvety blackish-crimson, very fragrant. An abundant bloomer.

BETTY UPRICHARD. The coppery buds open into flowers of unusual size and beauty. Inside of petals light salmon, with brilliant orange and carmine outside.

BRIARCLIFF. Brilliant rose-pink, full flowers on long stiff stems, fragrant and lasting.

CONDESA DE SASTAGO. A marvelously colored rose with large flowers of fiery copper red inside and rich yellow outside.

EDITH NELLIE PERKINS. Salmon-rose flowers, outside of petals old gold.

EDITOR McFARLAND. Shapely buds and double, brilliant pink blossoms.

ETOILE DE HOLLANDE. The immense buds open into very double flowers of intense bright red with velvety sheen. Very fragrant and a free bloomer.

FRANCIS SCOTT KEY. Large and very double crimson flowers on tall stems.

GOLDEN CHARM. Lemon-yellow buds heavily splashed with crimson develop into large double yellow flowers.

GOLDEN DAWN. The large flowers are a clear unfading lemon yellow and very fragrant.

GRENOBLE. Large, scarlet-red flowers without shading on long stems.

JEAN BOSTICK. Copper-red inside and golden yellow outside.

K. A. VICTORIA. Splendid large buds and superb double blooms of pure creamy white. A continuous bloomer, unsurpassed for cutting.

LUXEMBOURG. Buds long and pointed, with blooms of deep bronzy yellow, very full and lovely.

BRIARCLIFF ROSES.

EVERBLOOMING ROSES—Continued

McGREDY'S SCARLET. Vivid rose-red, with a blazing scarlet sheen. Large flowers of perfect shape.

PICTURE. Velvety clear rose-pink, with undertones of salmon. Very double.

POINSETTIA. Bud long-pointed; large, double flowers of bright unfading scarlet. Vigorous, prolific bloomer.

RADIANCE. A universal favorite, producing an almost continuous supply of silvery to deep pink blooms of lovely form.

RED RADIANCE. A deep rosy-red sport of Radiance with all its good qualities.

ROSLYN. Deep golden-yellow flowers, borne singly on long strong stems.

ROUGE MALLERIN. Long, pointed scarlet buds, opening into large blooms, very fragrant.

SISTER THERESE. Dark golden yellow, long pointed buds, marked red. Blooms freely.

SUNBURST. Exquisite long full buds and lovely blooms, deep coppery-gold, heavily tinted carmine.

TALISMAN. Brilliant red and gold buds, opening to well shaped blooms of scarlet orange and rich yellow.

YELLOW TALISMAN. A golden-yellow sport of Talisman.

EVERBLOOMING ROSE COLLECTION (Group No. 717)
